NOV 12, 1917.

The Honorable,

The Secretary of the Interior.

Sir:

In accordance with your instructions I recommend the withdrawal for water-power sites of the following area involving approximately 378 acres. This withdrawal modifies Power Site Reserve No. 8 to the extent of redescribing lands in T. 21 N., R. 21 E., B. M., to conform to a new survey, and by reason of the new survey and description the area withdrawn in this township is decreased by 77 acres. The area hereby withdrawn in T. 21 N., R. 22 E., is 55 acres. The aggregate area withdrawn from entry is therefore decreased by 22 acres as a result of this order.

Respectfully,

Director.

The Honorable,

The Secretary of the Interior.

Sir:

*W. T. C. W. G. M. B. V. L. B.*

In accordance with your general instructions, I recommend the withdrawal for power-site reserve of the land indicated in the following order of withdrawal (Power Site Reserve No. 723), involving an area of approximately 127 acres in California, the modification of such reserve, and also the modification of Power Site Reserve No. 58, which action will allow the issuance of a final power permit to J. S. Cain for a dam, conduit, and transmission line right of way under the act of February 15, 1901 (31 Stat., 790), in pursuance of application designated Independence 05615 now pending in the Department of the Interior.

Respectfully,

SEP 29 1919

Respectfully referred to the President with favorable recommendation.

Director.

The Honorable,

The Secretary of the Interior.

Sir:

In accordance with your general instructions, I recommend the withdrawal for power-site reserve of the following area, involving approximately 2,442 acres in California. The lands listed are all shown to be unpatented by search of status made by an employee of the Geological Survey on December 10, 1920.

Respectfully,

Director.

I concur in the foregoing recommendation.

JUN 10 1930

The Honorable,  
The Secretary of the Interior,

Through the General Land Office  
and the Office of Indian Affairs.

Sir:

I am informally advised by the Indian Service that Power-Site Classification No. 234, Quinault River, Washington, approved May 12, 1930, includes lands within the Quinault Indian Reservation, Washington, and therefore the act of March 3, 1879 (20 Stat., 394), under and pursuant to which this classification was made, does not apply.

I therefore recommend for your approval the accompanying proposed order (Order of Cancellation No. 35), including all of the lands within the classification mentioned, and transmit also a proposed order of withdrawal (Power-Site Reserve No. 760), under Sections 13 and 14 of the act of June 25, 1910 (36 Stat., 855, 854), which lists all the lands included within the classification mentioned except those tracts for which individual Indians have received trust patents. The area involved in the cancellation is 746 acres and that within the withdrawal 452 acres.

Yours very truly,

Director.

I concur:

C. C. Moore

Commissioner, General Land Office.

C. J. Rhoads

Commissioner, Office of Indian Affairs.

WASHINGTON

JUN 10 1890

The Secretary of the Interior,  
The Executive,

Through the General Land Office  
and the Office of Indian Affairs.

Sir:

I am informally advised by the Indian Service that  
Lower-Site Classification No. 12, (formerly Lower, California,  
approved May 12, 1890, includes lands within the California  
Indian Reservation, California, and therefore the act of March  
3, 1890 (26 Stat., 394), under and pursuant to which this classification was made, does not apply.

I therefore recommend for your approval the accompanying  
the proposed order (Order of Classification No. 12), including all  
of the lands within the classification mentioned, and transmit  
also a proposed order of withdrawal (Proclamation No. 100),  
under sections 17 and 18 of the act of June 25, 1890 (26 Stat.,  
552, 553), which lists all the lands included within the classification  
mentioned except those known for other Indian lands  
have received from patents. The area involved in the classification  
is 765 acres and that within the withdrawal 175 acres.

Very truly yours,

Director.

I certify:

G. C. Moore

Commissioner, General Land Office.

C. J. Rhoads

Commissioner, Office of Indian Affairs.

The accompanying order of withdrawal embraces lands in the diminished or south half of the former Colville Indian Reservation along the right bank of Columbia River. This part of the reservation was opened to entry on September 5, 1916; and was temporarily withdrawn September 19, 1934, under Section 3 of the act of June 18, 1934 (48 Stat. 984). The lands on the left bank were withdrawn in Temporary Power Site Withdrawal No. 129 on March 23, 1910, which was made permanent by Executive Order of July 2, 1910. Records of the Geological Survey indicate that this section of the river would be affected by backwater from the proposed Foster Creek power development which involves a site with a potential capacity of 352,000 horsepower for 90 percent of the time. I therefore recommend the approval of the withdrawal as power site lands (Power Site Reserve No. 761, Columbia River, Washington) of the following area involving approximately 478 acres. The lands listed are all shown to be vacant lands by search of status by an employee of the Geological Survey on November 2, 1935.

Sir:

The accompanying order of withdrawal embraces lands in the detached or south half of the former Colville Indian Reservation along the right bank of Columbia River. This part of the reservation was opened to entry on September 2, 1916; and was temporarily withdrawn September 19, 1934, under Section 3 of the act of June 18, 1934 (48 Stat. 224). The lands on the left bank were withdrawn in Temporary Order No. 129 on March 25, 1910, which was made permanent by Executive Order of July 2, 1910. Records of the Geological Survey indicate that this section of the river would be affected by backwater from the proposed Foster Creek power development which involves a site with a potential capacity of 125,000 horsepower for 50 percent of the time. I therefore recommend the approval of the withdrawal as power site lands (Power Site Reserve No. 761, Columbia River, Washington) of the following area involving approximately 475 acres. The lands listed are all shown to be vacant lands by search of status by an employee of the Geological Survey on November 2, 1935.

The accompanying proposed order of power site reserve embraces lands in the Hualpai Indian Reservation adjacent to Colorado River which would be affected by backwater from a moderately high dam at either the Bridge Canyon or the Traver-tine Canyon dam site. I recommend the approval of this order (Power Site Reserve No. 763, Colorado River, Arizona) in-volving an estimated area of 400 acres. The lands are all shown to be tribal lands by search of status made by an em-ployee of the Geological Survey, October 17, 1941.

The accompanying proposed order of withdrawal embraces lands in the former Colville Indian Reservation which were temporarily withdrawn by the Secretary of the Interior on September 19, 1934, for consideration of their permanent restoration to tribal ownership under section 3 of the act of June 18, 1934 (48 Stat. 984). The lands would be affected by backwater from a dam at the Chelan and Foster Creek power sites on Columbia River as described in a report by the District Engineers at Seattle, Washington, and Portland, Oregon, and submitted to Congress by the Chief of Engineers, U. S. Army, on March 29, 1933 (H. Doc. 103, Vol. II, 73d Cong., 1st Sess.). I recommend the approval of this order (Power Site Reserve No. 764, Washington) involving an area of 3,006 acres. The lands listed are all shown to be vacant lands by search of status made by an employee of the Geological Survey on December 1, 1943.

August 16, 1910.

The Honorable,

The Secretary of the Interior.

Sir:

In accordance with your instructions of June 25, 1910, relative to the examination of lands within the Siletz Indian Reservation Oregon, for the purpose of determining, in accordance with the provisions of the Act of May 13, 1910 (Public No. 175), what lands are valuable for water-power purpose, I have the honor to report that a preliminary examination of these lands has been made by an engineer of this office.

The act above referred to provides:

"Sec. 2. That he is also authorized to cause the lands reserved for administrative purposes in connection with the affairs of the Siletz Indians and those reserved for educational and missionary purposes to be surveyed, platted, appraised without considering any improvements located thereon, and sold for town lots or for such other purposes as he may deem advisable: Provided, that he shall reserve from sale any water-power sites that may be located on the lands so reserved."

The lands reserved for administrative purposes described in the act are located in Sections 4 and 9, T. 10 S., R. 10 W., Willamette Meridian, Oregon. Concerning these, the engineer states that they have no water frontage and do not, of themselves alone, provide opportunity for power development. They, however, form an essential part of a valuable power site, which, if properly developed, will form a head of about 70 feet. This tentative plan

The Honorable,

The Secretary of the Interior.

Sir:

In accordance with your instruction of June 25, 1910, relative to the examination of lands within the Siletz Indian Reservation, Oregon, for the purpose of determining, in accordance with the provisions of the Act of May 13, 1910 (Public No. 175), what lands are valuable for water-power purposes I have the honor to report that a preliminary examination of these lands has been made by engineers of this office.

The act above referred to provides:

"Sec. 2. That he is also authorized to cause the lands reserved for administrative purposes in connection with the affairs of the Siletz Indians and those reserved for educational and missionary purposes to be surveyed, plotted, appraised without considering any improvements located thereon, and sold for town lots or for such other purposes as he may deem advisable: Provided, that he shall reserve from sale any water-power sites that may be located on the lands so reserved."

The lands reserved for administrative purposes described

in the act are located in sections 4 and 9, T. 10 S., R. 10 W., Willamette Meridian, Oregon. Concerning these, the engineer states that they have no water flowage and is not, of themselves alone, provide opportunity for power development. They, however, form an essential part of a valuable power site, which, if properly developed, will form a head of about 70 feet. This tentative plan

contemplates the diversion of the water in the SE $\frac{1}{4}$  of Section 17 of this township and its conveyance by flume across allotted lands and the administrative lands above mentioned to a point in the SE $\frac{1}{4}$  of Section 4 where the power house would be located.

The lands needed for this project, in addition to a portion of the administrative lands, comprise, with one small exception, allotted lands held in trust for Indian allottees, the fee to which has not passed from the United States. A complete report regarding the lands necessary to this development will be transmitted as soon as the investigation is completed. It seems desirable that this site should be protected pending complete data, and, in order that no further steps may be taken toward the alienation of such lands, I recommend that in accordance with the provisions of the Act approved June 25, 1910 (Public No. 313), the following lands be temporarily reserved from location, entry, sale, allotment or other appropriation, and that no trust or fee simple patent be issued as regards these lands till further orders:

INDIAN LANDS POWER-SITE RESERVE NO. 1.

Siletz River, Oregon.

Willamette Meridian.

Sir:

Field examination by this office indicates that those portions of the Deschutes and Metolius Rivers which border the Warm Springs Indian Reservation in Oregon have large possibilities of power development. The unpatented public lands on the opposite bank of these rivers have been included in Power-Site Reserves Nos. 26 and 66, approved by the President on July 2, 1910, and it is therefore desirable in order that these power possibilities may be fully controlled that the Government should retain title to the lands bordering the rivers within the Indian Reservation.

I therefore recommend that in accordance with the provisions of the Act approved June 25, 1910, (Pub. No. 313), the following lands be reserved from location, entry, sale, allotment or other appropriation, and that no trust or fee simple patent be issued as regards these lands until further orders:

INDIAN LANDS POWER-SITE RESERVE NO. 2.

Deschutes and Metolius Rivers, --- Oregon.

To Honorable,

The Secretary of the Interior.

(Through the Commissioner of Indian Affairs)

Re:

Field examination by engineers of this office and of the Office of Indian Affairs indicates that on portions of the Blackfoot River which border the Fort Hall Indian Reservation there are possibilities of valuable power development. The unpatented public lands on the opposite bank of the river were included in Power-Site Reserve No. 165, approved by the President on December 19, 1910, and it is therefore desirable, in order that these power possibilities may be fully controlled, that the Government should retain title to the lands bordering the river within the Indian Reservation.

I therefore recommend that in accordance with the provisions of the act approved June 25, 1910 (Pub. No. 313), the following lands be reserved from location, entry, sale, allotment or other appropriation, and that no trust or fee simple patent be issued as regards these lands until further orders:

The Honorable,

The Secretary of the Interior.

(Through the Commissioner of Indian Affairs)

Sir:

Field examination by engineers of this office and of the  
 Office of Indian Affairs indicates that on portions of the Blackfoot  
 River which border the Fort Hall Indian Reservation there are possi-  
 bilities of valuable power development. The unpatented public lands  
 on the opposite bank of the river were included in Lower-Site Reserve  
 No. 165, approved by the President on December 19, 1910, and it is  
 therefore desirable, in order that these power possibilities may be  
 fully controlled, that the Government should retain title to the lands  
 bordering the river within the Indian Reservation.

I therefore recommend that in accordance with the provisions of  
 of the act approved June 25, 1910 (Pub. No. 313), the following lands be  
 reserved from location, entry, sale, allotment or other appropriation,  
 and that no trust or fee simple patent be issued or regards these lands  
 until further orders:
